Movement Deport Racism – Kinisi Apelaste to Ratsismo (Griechenland):**

**\*Urgent call for international solidarity and financial contribution\***

*(per Email vom 7. April 2016)*

The refugees in Greece are now facing a dramatic situation. The government and the Greek state are amassing them in concentration camps, in really miserable conditions. The implementation of the reactionary agreement of EU-Greece-Turkey (that provides for massive deportations of refugees) will start in the following days.

Until now, the survival of thousands of refugees is dependent on a really touching wave of solidarity from the popular classes, despite the unprecedented difficulties they face themselves, after many years of crisis and austerity measures.

Antiracist organizations are doing their best, exceeding their limits both in terms of human endurance and in terms of material resources.

Movement “Deport Racism” is one of the main forces in organizing antiracist struggle and solidarity to the refugees. “Deport Racism” supports the “Sunday Immigrants School”, one of the oldest antiracist organizations in Greece, that is trying to co-ordinate the collection of necessary goods (food, medicine, clothing) and distribute them to the refugees who are mostly in need. The School was awarded by the Open University of Athens for being one of the top organizations engaged in voluntary solidarity.

We would like to emphasize that both “Deport Racism” and the School refuse to accept funding from the government or the state, in order to safeguard their needed political independence.

In this crucial time, we are asking for international solidarity and financial contribution. Be assured that even the smallest amount is of extreme value for us. Be assured that this help will be used in the best possible way to support the refugees.

Any contribution can be sent to the bank account of the movement “Deport Racism”:
